

IMPORTANT MESSAGE

This message is directed to all who reside or operate a business in Middlesex Township.

As most of you know, the township conducts an annual joint fire fund drive to assist the three fire companies that provide fire protection and emergency services to the township. Since the township does not have a fire company located in the township, we contract three neighboring fire companies (New Kingstown Fire Co., North Middleton Township Volunteer Fire Co., and Shermans Dale Community Fire Co.) to provide fire and rescue services.

These fire companies are staffed by all volunteer firefighters. It is becoming more and more difficult for the fire companies to raise funds to purchase equipment and apparatus and meet their annual operating expenses. Consequently we are appealing to you, our community to help support our fire companies. Your support will allow these companies to continue operating as volunteer companies.

This is the only letter that you will receive. Since we do not solicit donations by telephone or internet or contract with telemarketers, 100% of all donations received go directly to the fire companies. Please remember that any donation is extremely important and very much appreciated. Your tax deductible contribution will certainly go a long way in allowing these companies to continue providing first rate fire and emergency services to the township.

Thank you for your continued support.
