Mobile Cart Information

As part of the new contract, Penn Waste will be distributing mobile carts to customers in Middlesex Township for Trash and Recycle Service.

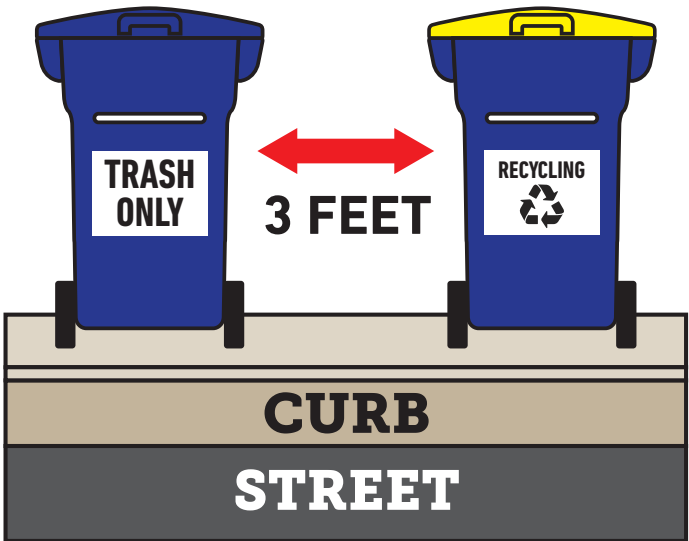

Mobile cart delivery is scheduled to begin March 20, 2024. Customers will receive one (1) 96 gallon mobile cart for trash and one (1) 65 gallon mobile cart for recycle.

A low volume service has been introduced in this contract. To begin, all residents will receive carts on the Standard Trash Service level, and may contact Penn Waste at 717-767-4456 or info@pennwaste.com to request a 35 gallon sized trash and recycling container. If you would like to change to low volume service, please contact Penn Waste customer service.

Penn Waste will be collecting the waste and recycling from Middlesex Township with an automated truck. This vehicle is operated by one person and has a mechanical arm that will lift material into the truck. In order to be compatible with the trucks, the use of mobile carts is required. The utilization of the mobile carts allows Penn Waste to provide the most efficient collection for the best price to residents. The mobile carts also reduce the amount of litter and pests within the township. include a note that says to take as trash.

Proper Cart Placement

Please be advised that all mobile carts should be placed behind the curb or street line. There should be nothing placed in the roadway that would impede or delay the removal of snow or ice from the road. The garbage truck arm has the capability to reach past the curb in order to pick up your cans.

Here are some tips to ensure a smooth collection process:

- ◆ Set mobile cart out the evening before pickup day.
- ◆ Place mobile cart with the lid handle and wheels pointing toward your residence.
- ◆ Do not place cart in the roadway.
- ◆ Do not block walkways with carts.
- ◆ Place carts at least THREE FEET APART from each other and mailboxes, fire hydrants, low hanging trees or shrubs, parked cars, or utility poles - so trucks can easily access the cart.
