

**MIDDLESEX TOWNSHIP
SPECIAL MEETING AGENDA**

**August 19, 2026
6:00 PM**

OFFICIALS PRESENT:	SUPERVISORS:	Chairman Donald S. Geistwhite, Jr. Vice-Chairman Phil Neiderer
	SOLICITOR:	Keith O. Brenneman
	PUBLIC SAFETY	
	DIRECTOR:	Chief Andrew Bassler
	ZONING OFFICER:	Mark D. Carpenter
	ASST. CODES ENFORCEMENT/ MS4 COORDINATOR:	Gerald Steigleman
	ENGINEER:	Gerald "Bud" Grove
	MANAGER/ ROADMASTER:	Zachary L. Zook
	SECRETARY/ TREASURER:	Eileen Gault

OFFICIALS ABSENT: **SUPERVISOR:** William H. Goodhart

CALL TO ORDER: Chairman Geistwhite called the meeting to order at 6:04 p.m., at the Middlesex Elementary School Gymnasium, followed by the Pledge of Allegiance. The meeting opened with an invocation asking for peace, self-control, and God's guidance over the organization, and all those present.

Public Comment: Vice-Chairman Neiderer reviewed the rules for public comment stating that it is for Township residents and taxpayers, limiting speakers to three minutes. Residents were asked to state their name and address. Public comments were summarized by speakers as below. Names are provided if audible.

Hilda Vasquez Rosa of Buckeye Lane raised concerns about the effects of PAX-1 blasting on nearby mobile homes, arguing that existing blasting standards may not adequately account for the structural vulnerabilities and vibration response of manufactured homes. She urged the Township to recognize this potential regulatory gap and establish additional protections for residents located very close to the project boundary.

Sheena Jumper of Evergreen Lane expressed concern that the project has moved forward with insufficient transparency and meaningful public involvement, leaving nearby residents feeling unheard and disrespected. She urged decision-makers to provide greater protection, meaningful participation, and respect for those who will live with the project's long-term consequences.

Dave Brakeway raised concerns about low-frequency noise and vibration from the proposed data center and questioned whether the Township's 70-decibel noise limit adequately addresses frequencies that may have potential effects of continuous operation on nearby residents. Finally, he questioned the project's intrinsic value to Township residents and expressed concern that construction activities appeared to be moving forward before final approval, creating a perception that the project had already been predetermined.

Andrew Dymski of Bernheisel Bridge Road opened his public comment with a prayer asking for God's presence, guidance, peace, and truth during the meeting.

Kyle Gerber of Bernheisel Bridge Road, speaking on behalf of Stop PAX-1, submitted a letter and petition opposing the proposed PAX-1 Data Center campus. He stated that the petition had been signed by more than 2,000 people and urged the Board of Supervisors to consider the concerns of their constituents and, if the decision was no longer within the Township's control, to publicly state their position on the project.

Mike Coulsom of Oak Ridge Drive asked about the absence of Supervisor Goodhart, noting that he had missed the previous three meetings. The Board confirmed only that Mr. Goodhart was not present.

Robbie Kribell of Sasafrass Lane expressed concern about the lack of meeting documentation and supporting materials available to the public which contributes to public frustration. She also criticized what she described as unprofessional conduct by Township employees or consultants toward residents and Planning Commission members. She urged Township officials not to accept the substandard equipment that is being proposed with the PAX-1 project.

Dr. Francis Castrina, a retired physician and member of the Clean Air Board, requested that the PAX-1 developer develop an air quality monitoring plan and submit it to the Township and Pennsylvania DEP for public review. He also asked the Board to require air quality monitoring as part of current and future project approvals. Dr. Castrina expressed concerns about pollution from the project's large-scale, multi-year construction activities and the potential health risks to nearby residents, particularly children, the elderly, and pregnant women. He emphasized that monitoring is necessary to determine whether pollution levels pose a risk and to allow mitigation measures to be taken if needed.

Kyle Defilippo of Goldenrod Drive expressed concerns about the potential health effects of noise pollution and diesel generators associated with the proposed development. She urged Dr. Phil Neiderer, as a physician and elected official, to take a stronger role in protecting the health and well-being of Middlesex Township residents and taxpayers.

Jason Bullock of Goldenrod Drive expressed concerns about issues he previously raised and expressed frustration that he felt they had not been adequately addressed. He referenced an email exchange between the developer's attorney and the Township solicitor regarding blasting and potential waivers that could turn into a "public fecal vortices". He then criticized what he described as repeated instances of disrespect toward residents and raised concerns about Township officials' accountability.

Earl Beam of Country Club Road read a letter on behalf of Country Club Road residents, describing ongoing noise, blasting, dust, and air-quality concerns caused by the PAX-1 project. He said residents feel their quality of life, safety, and property values have been negatively affected while the Township benefits financially and residents receive no compensation.

Earl Beam questioned the Township's oversight of PAX-1, including concerns about excessive berm heights and construction hours. He also challenged how the Township responded to a letter from John Detrich, asking whether the Board collectively reviewed and approved the responses. Vice Chairman Neiderer stated that he responded independently as an individual supervisor and did not discuss his answers with the rest of the Board.

Alexia Farrell, a North Middleton resident who works in Middlesex Township, criticized restrictions on nonresidents speaking and raised concerns about the PAX-1 data center's generator noise, emergency response capabilities, and impacts on nearby communities. She then allowed her 12-year-old daughter to speak, who expressed opposition to data centers and concern about their potential effects on future generations.

Andy Harder of The Meadows Development, a longtime Middlesex Township resident, criticized the proposed data center and questioned the Township's oversight of construction and regulatory compliance. He cited concerns about dust, noise, berm heights, blasting, construction traffic, and stormwater runoff into the Conodoguinet Creek, and urged officials to improve monitoring and protect residents, the environment, and wildlife.

Jenny Jackson, a Meadows resident, stated that the Board of Supervisors should not vote on the final land development approval for the first six data center buildings. She cited an executive order signed by Governor Shapiro the previous day and questioned how the Board could have legally deliberated its motion in compliance with the Sunshine Act given the timing.

A speaker criticized the lack of public notice and awareness surrounding the data center project, saying many residents did not know what was happening until they observed activity on the property. The speaker raised concerns about wildlife and potential impacts on LeTort Spring Run and Conodoguinet Creek. The resident questioned whether the Board had adequately considered public opposition and environmental protections and concluded that residents were united in opposing the project and called for it to be shut down.

Jessica St. Clair, urged the Board to either vote against the pending PAX-1 approvals or request a 30-day extension. She stated that the extension would allow the Board and regional authorities time to consider Governor Shapiro's recently issued executive order and the broader regional impact of the project. She also emphasized that the project's water supply and wastewater disposal involve neighboring municipal authorities, including South Middleton and Carlisle, and those communities should have a greater voice in decisions affecting regional water and wastewater resources.

Stan Shivel of Teaberry Drive criticized the Board for what he described as intellectual arrogance and an unwillingness to reconsider its position. He stated that the Board had repeatedly dismissed residents' concerns and comments as misinformation, demonstrating, in his view, that its members were unwilling to change their minds regardless of the information presented.

A speaker emphasized that the Conodoguinet Creek flows beyond Middlesex Township, expressing concern that pollution could have impacts far beyond the local community, and are tired of the community being, poisoned, disregarded, and disrespected.

Alexia Gerber of Bernheisel Bridge Road, spoke about her family's deep generational ties to their property and concerns about the impact of the proposed PAX-1 data center. She expressed concern that the project could threaten their children's health and quality of life through potential impacts to air and water quality, noise, and the surrounding natural environment. She stated that these concerns had not been adequately addressed or mitigated by the developer. She also cited Pennsylvania's Constitution and urged the Board of Supervisors to protect residents, future generations, and natural resources by voting against the project.

Jody Shivel of Teaberry Drive expressed concern about the absence of a third Board member during what she described as a historically significant vote for the Township and Cumberland County. The speaker questioned the status of Mr. Goodhart and whether his absence had been adequately addressed, arguing that having a third Board member present could provide an additional perspective and encourage discussion. In response, Vice Chairman Neiderer declined to discuss any personal matters but confirmed that Mr. Goodhart had not resigned from the Board and, to his knowledge, had not submitted a retirement notice or intended retirement date.

Jocelyn Colyer expressed concerns about the data center approval process, stating that zoning laws, ordinances, and planning procedures designed to protect communities and natural resources had been treated as negotiable in favor of private developers and projected tax revenue. She stated that growth and preservation can occur together if development is planned responsibly and concluded by urging the Board to accept responsibility for its past decisions and take action to protect the community and future generations, emphasizing that it is never too late to change course.

Ashley Asper of Horners Road asked whether Steve Larson, who had been appointed as a vacancy board member in January, would automatically fill Mr. Goodhart's position if a vacancy occurred. Vice Chairman Neiderer explained that if a vacancy occurs, the remaining Board of Supervisors has the authority to appoint someone to fill the position, and the appointee would then need to run for election if they wished to remain in office. He also explained that the Board would follow the applicable timeline for accepting a resignation and appointing a replacement.

Reverend Ricky McCarl from Good Shepherd Church thanked everyone for being present and then questioned how Board members felt to know that their political careers are over, while acknowledging that he did not expect an answer.

Arlene Darlington of Wertzville Road asked what mitigation plan would be available if construction of the surveillance center negatively affected her private well, seeking confirmation that a plan would be in place, including a written process and someone residents could contact if their wells were impacted. Vice Chairman Phil Neiderer responded that well mitigation issues would be addressed later during the presentation.

NEW BUSINESS:

Vice-Chairman Neiderer stated it was time to allow the developer to present all agenda items, regardless of their listed order, before opening the floor for questions and discussion.

Representatives present for the PAX-1 project are Andy Giorgione, Justin Ross and Pete McGrath. Andy Giorgione introduced the upcoming presentation, though crowd noise made parts of his remarks difficult to hear. He reviewed the final Phase 1B plan and requested waivers, noting the plan was originally submitted in November 2025 and preliminarily approved on May 6, 2026. He said the presentation would also include architectural design and viewshed reviews, followed by discussion of the master development agreement, an amendment related to Campus 1B, a signed letter agreement, and community benefits.

A representative for PAX-1 presented the Preliminary Land Development Plan for Phase 3. The Phase 3 campus is planned as a five-building campus with buildings and equipment oriented to reduce visibility from Country Club Road. He also reviewed stormwater management, including MRC cells designed to drain within 72 hours. He then outlined 12 requested waivers or

modifications, primarily involving plan scales, easement information, sidewalk and curb requirements, driveway design, building details, stormwater infiltration, dewatering time, and detention basin flow requirements. He explained that sidewalks were being waived within the secure campus because pedestrian access would not be necessary. The representative clarified that the plan includes six water storage tanks, each approximately 2.1 million gallons and measuring about 55 feet high by 84 feet in diameter, along with two industrial wastewater tanks and two smaller fire-suppression tanks.

A representative for PAX-1 presented the final Phase 1B plan, including the campus layout, stormwater areas, wetlands and buffer protections, internal roadways, security, landscaping, and screening. Additional visual renderings were reviewed from several locations along Country Club Road and Bernheisel Bridge Road, showing how berms, trees, and other landscaping are intended to reduce views of the campus. The developer also discussed Dark Sky-compliant lighting, with reduced lighting levels and motion-activated security lighting.

The discussion continued with requested waivers and stormwater modifications for Phases 3 and 1B. HRG raised an unresolved concern regarding the noise study because the final equipment specifications had not been provided. Two options were discussed: providing the equipment information for review or conducting post-construction noise monitoring. Numerous waivers and modifications were discussed for both Phase 3 and Phase 1B, including plan scale requirements, sidewalks, driveway design, stormwater infiltration requirements, basin side slopes, and dewatering requirements. The developer and engineers explained the reasons for each request and how certain requirements would be deferred, modified, or waived.

There was discussion about comments regarding minimum lot width and the need for financial security and completion of the Master Development Agreement before final approval of Phase 1B. The developer then provided an overview of the proposed agreements, including a community benefits payment of \$14 million to the Township with payments tied to future project milestones.

Finally, the developer reviewed the Master Development Agreement, which would require road improvements, including a right-turn lane, ongoing maintenance and repairs to Country Club Road during construction, and eventual reconstruction of the affected roadway. The agreement also included inspection requirements, insurance and indemnification provisions, and more than \$14 million in financial security for required improvements.

A significant portion of the discussion concerned noise. The Township's consultants explained that the exact make and model of some future equipment had not been provided because it would depend on the eventual end user. Two possible approaches were discussed: providing the equipment information for review or establishing a post-construction sound-monitoring program. At that point, the consultants indicated that the noise issue remained unresolved because neither approach had yet been finalized in an executed agreement.

The discussion then turned to the proposed development agreements and community benefits. The Community Benefits Agreement included a proposed \$14 million payment to the Township, intended for purposes including land preservation and taxpayer relief, with payments tied to future project milestones.

The proposed Master Development Agreement included requirements for improvements to Country Club Road, including a right-turn lane, road repair and reconstruction obligations,

monthly road inspections, developer responsibility for repair costs, insurance requirements, and substantial financial security to guarantee required improvements.

Additional protections discussed for inclusion in the agreements included:

- Weekly blasting reports to the Township;
- Pre- and post-blasting testing of qualifying nearby private wells;
- Developer-paid testing and remediation obligations;
- A proposed 24-month post-construction noise-monitoring program;
- Monthly reporting and public posting of noise-monitoring results; and
- Additional sound attenuation if monitoring showed that further mitigation was necessary.

At 8:50 p.m. Vice-Chairman Neiderer called a 10-minute recess due to a health-related matter with the Township Solicitor.

At 9:07 p.m. Vice-Chairman Neiderer reconvened the meeting stating that due to the health-related situation the developer has agreed to extend the meeting to September 2, 2026, at 6 p.m. The Township will announce where the meeting will be held. No action on the following items was taken.

Discussion and possible motion on a Community Benefits Agreement:

Discussion and possible motion on Master Developers Agreement for Pennsylvania Digital 1 (PAX-1):

Discussion and possible motion on Phase 1B First Amendment to Developers Agreement for Pennsylvania Digital 1(PAX-1):

Discussion and possible motion on Side Letter of Agreement for Well Testing, Noise Monitoring and Other Protections:

Discussion and possible motion on Preliminary Land Development Plan for Pennsylvania Digital (PAX-1) Phase 3 (BOS action deadline August 19, 2026):

Discussion and possible motion on Pennsylvania Digital 1 (PAX-1) Pennsylvania Department of Environmental Protection Sewage Facilities Planning Module & Component 3 for Sewage Collection and Treatment Facilities (BOS action deadline August 19, 2026):

Discussion and possible motion on Final Land Development Plan for Pennsylvania Digital 1 (PAX-1) Phase 1-B (BOS action deadline August 19, 2026):

Supervisor / Staff Comments:

There being no further business, the meeting was adjourned by Chairman Geistwhite at 9:08 p.m.

August 19, 2026

Middlesex Township Board of Supervisors
Middlesex Township, Cumberland County, Pennsylvania

Re: Petition in opposition to the PAX-1 data center campus

Members of the Board,

Attached is a petition opposing the PAX-1 data center campus, signed by more than 2,000 people between June 5 and August 19, 2026 through the petition form at StopPAX1.com. Over 1,100 list Carlisle and Mechanicsburg ZIP codes, the communities around the site. 458 supplied written comment.

These are your neighbors. Your constituents are among them; the people you have been elected to serve. They raise concerns over blasting they can feel in their homes, wells and the Conodoguinet Creek, noise, property values, their health, electric bills, and farmland. A selection of their comments follows this letter, reproduced as submitted. The full list of signatures follows that, with names and ZIP codes. Email addresses collected with each signature have been withheld to protect the signers' privacy. The complete records are available to the Township for verification.

We ask three things:

1. Enter this petition into the public record.
2. Read the provided comments.
3. Where decisions about PAX-1 still sit before this Board, weigh what this community is telling you. If a decision is no longer yours to make, at least go on record with where you stand.

You were elected to look after this community. More than two thousand people are asking you to do that.

Respectfully submitted,

Kyle Gerber

Middlesex Township resident
kylegerber94@gmail.com

Who signed

Figures are from the petition records as of August 19, 2026.

PETITION STATEMENT

"Add your name. Stand with your neighbors in public opposition to PAX-1."

As presented on the petition form at StopPAX1.com.

Signers	2,200
With a Pennsylvania ZIP code	1,845
Carlisle and Mechanicsburg ZIPs (17013, 17015, 17050, 17055)	1,197
No ZIP code (the early form did not require one)	300
Collection period	June 5 – August 19, 2026

Where signers live

ZIP	POST OFFICE	SIGNATURES
17015	Carlisle	414
17013	Carlisle	337
17055	Mechanicsburg	246
17050	Mechanicsburg	200
17011	Camp Hill	71
17019	Dillsburg	55
17007	Boiling Springs	45
17025	Enola	45
17241	Newville	28
17070	New Cumberland	28

Each entry includes the signer's name, email address, and date signed. Email addresses are withheld here; the Township may review the complete records on request.

Selected comments from signers

458 signers answered the form's optional prompt, "Tell us why you're opposed to PAX-1." A selection follows, reproduced as submitted. The full set is available to the Township on request.

"As a parent of a young child, I strongly oppose the PAX-1 data center and large-scale data centers in Cumberland County. These facilities consume enormous amounts of electricity and water, create noise and pollution concerns, strain local infrastructure, disrupt surrounding communities, and permanently change the character of the area. I do not believe Cumberland County should sacrifice its environment, resources, and quality of life for massive industrial data center development."

Daniel Kent · Carlisle (17013)

"The blasting is disturbing my peace and destroying my home. My house actually shakes when they blast. We are also experiencing increases in water issues due to issues with the main plumbing within Country Manor West Mobile Home Park. This project will ruin not only the residents quality of life, it is destroying our homes. The wildlife is disappearing, and I can't even imagine what it is / will be doing to the creek and the Appalachian Trail. Has anyone contacted the Appalachian Trail People over this?"

Sarah Dawson · Carlisle (17015)

"Too close to residential land and critical water way. Noise levels of hundreds of generators. They also have regular maintenance cycles even when not under load. Pollution. No plan for the end of life of this facility. I'm a developer, and this site doesn't have a complete plan. My neighbor's are selling their homes...our neighbor hood is being woken up with sounds of construction, not birds chirping. I have cracks in my drywall that were not there prior to the blasting. This is not a site for this use."

David Hutton · Carlisle (17015)

"I live across the road and the impact from the construction is unbelievable."

Earl Beam · Carlisle (17015)

"My child's school is within maybe 1/4 to 1/2 mile of the border and I live within a mile of this proposed monstrosity."

Courtney Todd · Carlisle (17013)

"Too close to residential housing developments, Appalachian trail, Conodoguinet creek, and Middlesex elementary school"

Andrew Harder · Carlisle (17015)

"This will significantly affect our ability to be safe and enjoy our home. We already had a water deficit this year and in past years, how can we support the amount of water they require. We can't afford the noise, poor air quality (I already am suffering headaches and sinus issues with the dust it creates), water contamination. This should NEVER be near residential areas."

Elizabeth Frantz · Carlisle (17013)

"Data centers interrupt our quality of life, negatively impact the environment on all levels including noise. Negatively impact our property value. Residence did not get a choice in this construction. We didn't move here to be near industrial construction."

Susan Kline · Carlisle (17015)

"I believe the residents of Middlesex Township were not properly informed of the data center's construction and its impact on the community until building was already started. I do not want our utilities and water sources strained. I would like to preserve our farmland and not have adverse effects on the environment. I am also concerned of the potential health problems since data centers are new and the health analyses have not been completed."

Kelly McDonnell · Carlisle (17013)

"Too close to homes and the Appalachian Trail. Too many buildings, etc., in the one proposed to be built in Cumberland County, PA without sufficient public input and oversight."

Rimfa England · Mechanicsburg (17050)

"As a resident of Cumberland County I am concerned about the impact this would have on our resources. Does the current infrastructure support the increased water and power usage? Who will pay for the upgrades if it doesn't? Also what about noise pollution and water pollution. This data center is upstream the creek that runs by my house, how will it be impacted? What about the wildlife that will be displaced because of all these factors?"

Carly Whitsel · New Cumberland (17070)

"The land in Middlesex Township that is being considered for the Pax-1 development project is adjacent to some of the most beautiful land in the township. This development should not proceed, as it will negatively impact adjoining areas that are used by central Pennsylvania residents for recreation and enjoyment."

Amy Urich · Lewisberry (17339)
